Dear Ms. Quinn:

Please accept my condolences on the death of your dear husband. I will make sure that you continue to receive information on the South Delta Improvements planning activities. A separate but related effort is just getting underway, involving the potential installation of new fish screens at the USBR Central Valley Project Tracy Pumping Plant.

If you have any further questions or comments, please feel free to write again or call me at (916) 653-6628. You may also call Steve Roberts at (916) 653-2118, the Project Manager for the South Delta Improvements Program. I have enclosed the scoping meeting notice for the proposed Tracy Pumping Plant Fish Screen Project which includes the names of USBR contact staff.

Sincerely,

Stein M. Buer  
Assistant Director
